

## Planet Balloon Origami

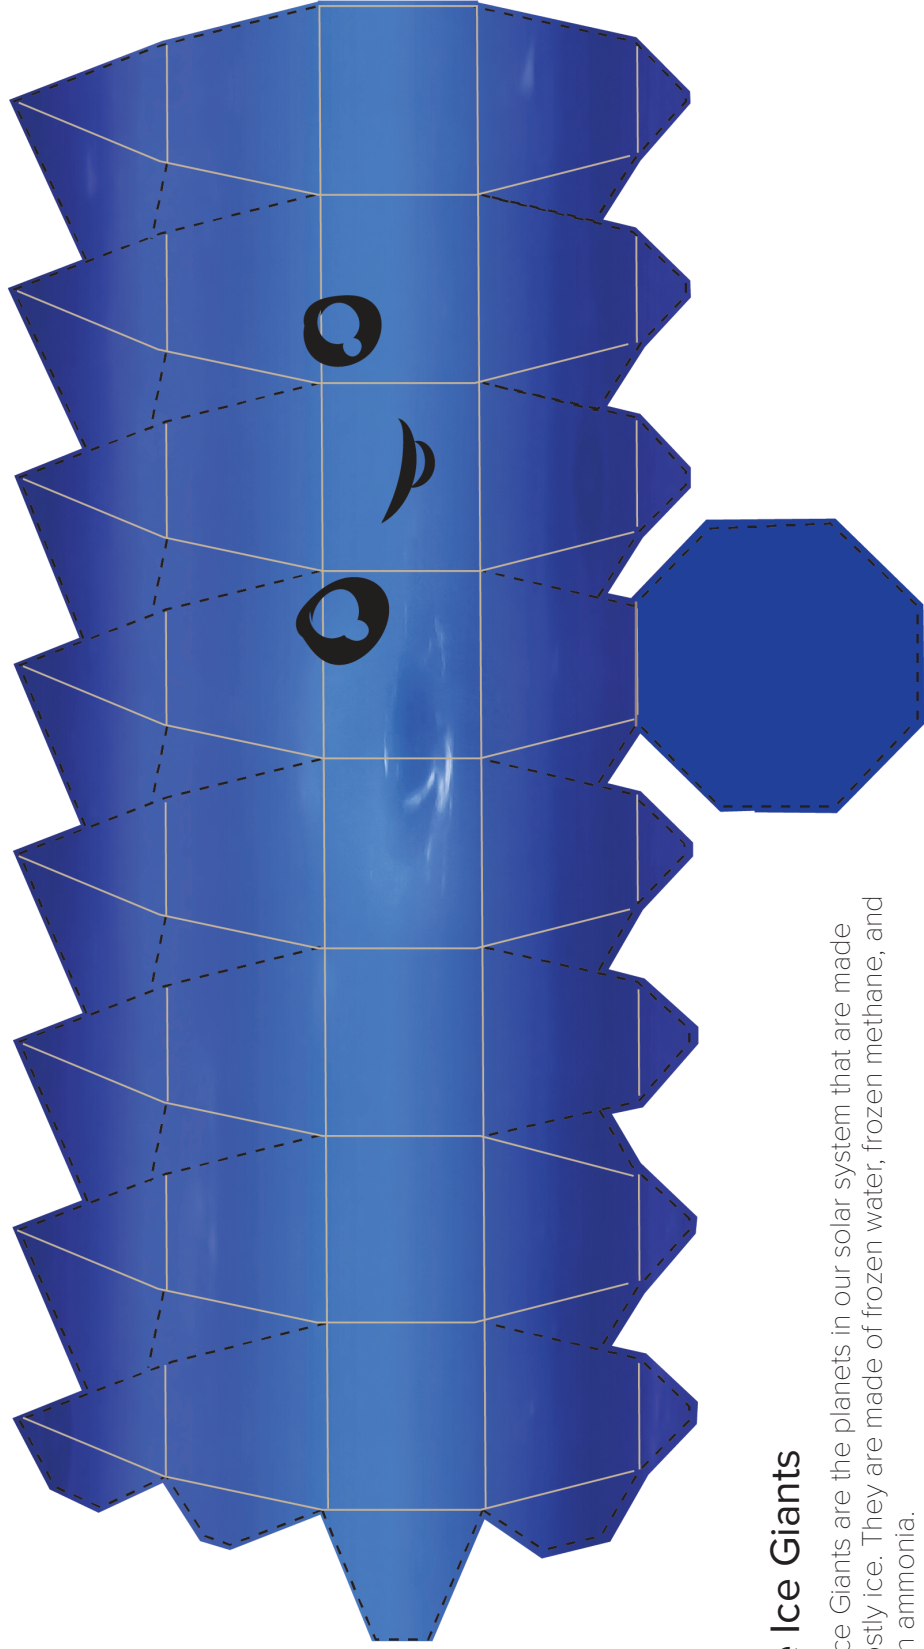

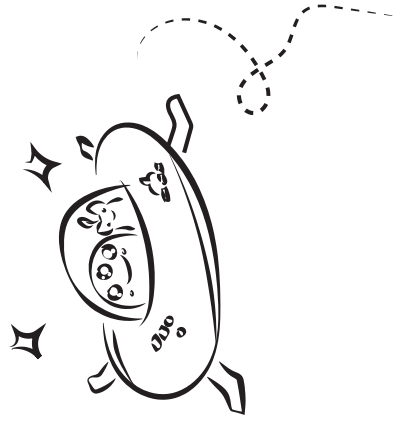

STEMTaught<sup>®</sup>

## Neptune

### Planet Facts:

Diameter: 30,598 miles  
Distance from Sun: 2.795 billion miles  
Length of day: 16 hours, 6 minutes  
Orbital period: 165 years  
Gravity: 1.14 times Earth's gravity

## The Ice Giants

The Ice Giants are the planets in our solar system that are made of mostly ice. They are made of frozen water, frozen methane, and frozen ammonia.
