Explore the
Phenomenon!

Make your own mosaic using tiles

You can use these paper tiles to create your own mosaic! By putting these small pieces together, you can make a larger work of art! Many different designs can be created using the same simple pieces. What design will you make?

Step 1: Draw a diagonal line across each of the tiles.

Step 2: Color half of each tile. It does not matter which half you color.

Step 3: Cut out your tiles and arrange them to create your pattern! Then use a glue stick to paste your tiles to your mosaic.

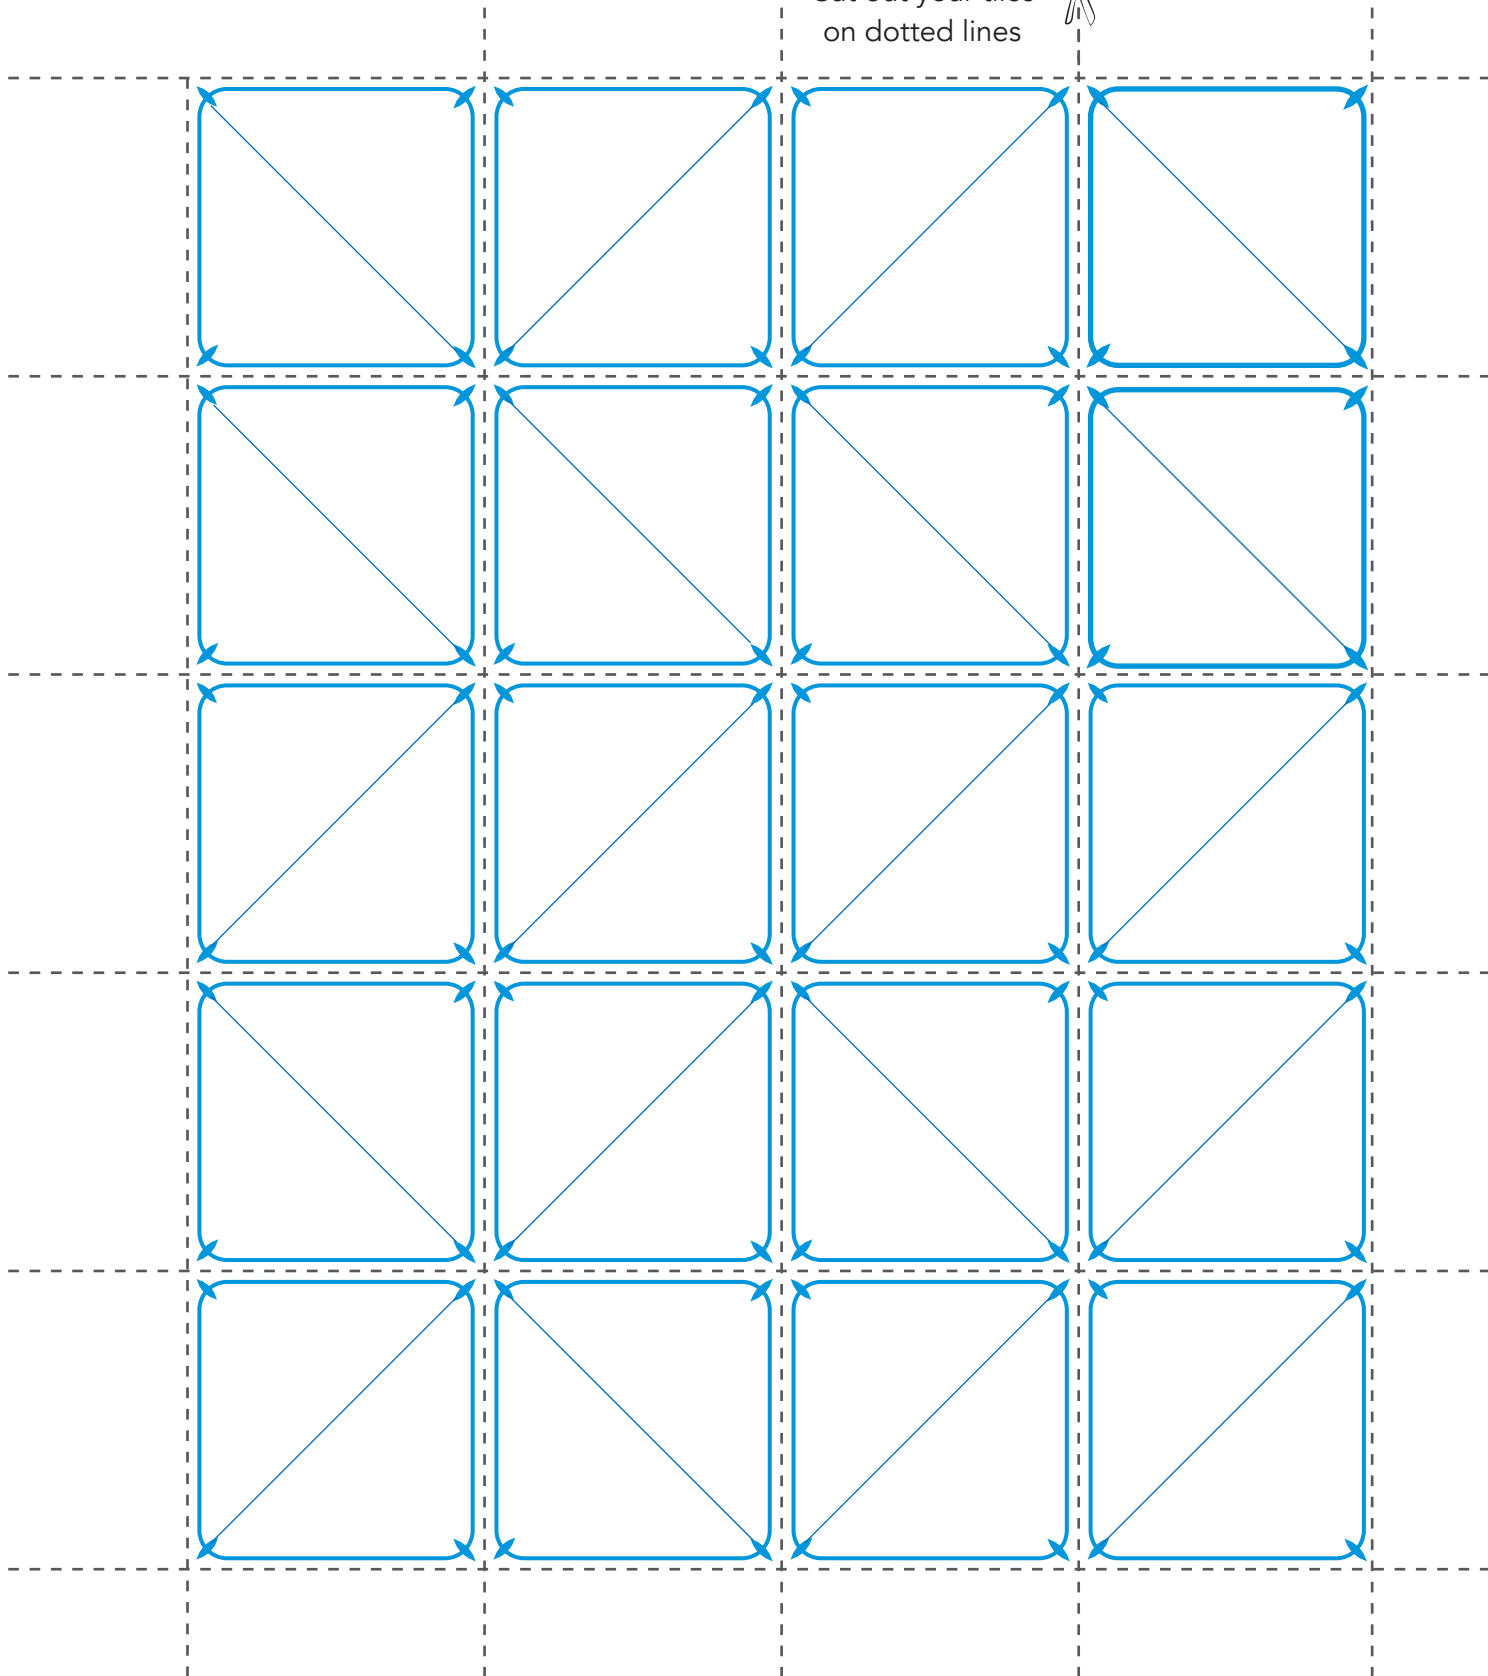

Simple tiles can be used to make beautiful patterns.

Attention Getter

You will be surprised to see how many beautiful designs you and your classmates can make. You can make diagonal lines, flowers and even diamonds.

Cut out your tiles
on dotted lines

MY MOSAIC

Arrange and glue your tiles here to create your pattern!

<p>Place a tile here!</p> 	<p>Glue a tile here</p>	<p>Glue a tile here</p>	<p>Glue a tile here</p>
<p>Glue a tile here</p>	<p>Glue a tile here</p>	<p>What will you make?</p> 	<p>Glue a tile here</p>
<p>Glue a tile here</p>	<p>I can't wait to see!</p> 	<p>Glue a tile here</p>	<p>It's okay! Cover us up!</p> 
<p>Glue a tile here</p>	<p>Glue a tile here</p>	<p>Glue a tile here</p>	<p>Its going to be good!</p> 
<p>Glue a tile here</p>	<p>Glue a tile here</p>	<p>Yup, yup!</p> 	<p>Glue a tile here</p>

Parents,

Your STEM Taught student is learning about how many things are made of smaller pieces. Beautiful designs and artwork can be made from small pieces such as mosaic tiles. Create more mosaic designs at home with your child.

Parent/child homework activity: Make a mosaic.

All you will need is paper, scissors and glue.

Step 1: Draw squares on paper. Draw a diagonal line across each of the tiles.

Step 2: Color half of each tile. It does not matter which half you color.

Step 3: Cut out your tiles and arrange them to create your pattern! Then use a glue stick to paste your tiles to your mosaic.

Think about things that you see and use everyday to answer the question.

Explain the phenomenon:

What types of things can be made from smaller pieces?
