

Paper Rocket

1, 2, 3, BLASTOFF!!!!

Cut out nose cone
Overlap and tape into a cone

Pluto Mission

Cut out fins
tape fins on rocket

New Horizons

The Atlas 5 rocket carried the new horizons explorer to our outer solar system to visit Pluto.

New Horizons was launched in 2006 and on July 4, 2015 it flew past Pluto and collected data and took pictures for two hours.

It took New Horizons 9 years to reach Pluto flying at a speed of 36,000 mph.

Then it took more than a year to transfer the data back to earth.

Roll around launch pipe
to form rocket body tube

Squish over pipe
and tape
